WHAT IS A GLP-1 AGONIST?

IF YOUR DOCTOR IS CONSIDERING A GLP-1 AGONIST for you, your body likely needs help balancing your blood sugar levels.

GLP-1 AGONIST is not insulin, but it does help your body balance sugar levels in a couple of important ways:

- IT HELPS YOUR BODY RELEASE MORE INSULIN
- IT HELPS YOUR BODY MAKE LESS SUGAR AFTER MEALS

YOU SHOULD KNOW:
All medicines, including GLP-1 agonists have side effects. As you and your doctor discuss treatment options, it is important that you ask about the benefits and risks of each treatment option.
